SPECIAL OFFERS for SPRING, 1922

EACH year we find more and more customers asking for **our** selection of good growing varieties in an assortment of colors.

Rather than read over endless descriptions in superlative terms which often sound so impossible or which never fulfill their promises, they ask us to send them a good collection of so many Roses.

This year we have selected just a few varieties for we believe more enjoyment is to be had from a few varieties in larger numbers than from one each of a large number of varieties.

We recommend these collections for their growing and blooming qualities and of course guarantee them as always to grow and bloom during the first year after planting or replace them without charge or question.

FRED D. OSMAN, Prop.

Climbing Roses for Trellises, Porches, Pergolas, Arbors or Just the Back Fence.

Everyone is familiar with the **Crimson Rambler** and **Dorothy Perkins**.

Many have not yet realized the great numbers of other Climbers or Ramblers which have their own distinctive beauty.

There's the **Yellow Rambler** or **Aglaia** with its double golden-yellow flowers in large clusters; the **Gardenia**, or **Hardy Marechal Niel** with its large double flowers of bright yellow, whose blooms are borne in large drooping clusters; **Hiawatha** with its small single clusters of ruby crimson flowers with white eyes; the **Climbing American Beauty**, a climbing prototype of its parent, the American Beauty Bush. This Climber, however, has better blooming qualities, a good foliage and has proven hardy, withstanding heat and drought; and last the **Gloire de Dijon**, an ever-blooming French Climber, claimed by many to be tender, but not so from our experience. Its fawn tinted salmon and rose blooms are fragrant and free blooming. It is one of the hardiest teas and esteemed by many as an old friend.

We offer this choice collection of eight Climbing Roses
namely:

Excelsa, red	Aglaia, yellow
Gardenia, yellow	Dorothy Perkins, pink
Crimson Rambler, red	Hiawatha, pink and white
Cl. Am. Beauty, pink	Gloire de Dijon, salmon pink

PRICES:

One each of these varieties,	8 Climbers for \$ 5.00
Two each of these varieties,	16 Climbers for 10.00
Six each of these varieties,	48 Climbers for 25.00
Twelve each of these varieties,	96 Climbers for 50.00

Sturdy But Younger Climbers at Less Cost

In this collection of One-Year-Old Climbers we have some new and some old varieties, but all of them can be well recommended.

Please realize that these Climbers at One Year of age are just as healthy and sturdy for their size as Two-Year Climbers. They make an excellent growth and bloom the first year after they are planted, and are guaranteed to do just this.

Excelsa, brilliant scarlet crimson, borne in large trusses. Plants very vigorous growers and thick with dark green foliage which does not mildew.

Dorothy Perkins, of the well-known pink, shading lighter as it blooms.

Dr. Van Fleet, one of the best Climbing Roses. Perfect bud, long and pointed, deep pink and solid. When fully opened, petals are light pink, shading to deep pink at center. Foliage an especially attractive dark glossy green.

American Pillar, large single flowers, cherry pink with clear white eye. Canes of vigorous growth and foliage distinctive and decorative, turning from dark green to bronze in Fall and early Winter.

Rosiere, one of the new Climbers, much like the beautiful Tausendschoen (Thousand Beauties), but superior in color, deeper and more even shade of cerise pink. A prolific bloomer.

PRICES:

One each of these varieties,	5 Bushes for \$ 2.50
Two each of these varieties,	10 Bushes for 5.00
Six each of these varieties,	30 Bushes for 10.00
Twelve each of these varieties,	60 Bushes for 20.00

Ever-Blooming Bush Varieties, Hybrid Teas

Chrissie MacKellar, orange pink, veined carmine. A difficult coloring to describe. Free flowering and richly scented. Semi-double with pointed buds.

Gorgeous, deep yellow, flushed copper yellow and heavily veined with reddish copper. Flowers full, large and well-formed.

Gruss an Teplitz or Virginia Coxe, dazzling crimson, single flower, very fragrant. Profuse in blooms from June till Frost. Excellent for mass planting.

Killarney or Irish Beauty, an old favorite. Brilliant pink with large pointed buds, broad wax-like petals with silvery edges and semi-full flowers of great beauty.

Hoosier Beauty, crimson scarlet with darker shadings, buds of good length and splendid shape. Fragrant, strong and clean grower, free from spot and mildew. A good Summer Rose.

Ophelia, another favorite, salmon flesh shaded with chamois center. A rose that is lovely at every stage of its bloom. Buds and flowers well formed and colored. Vigorous grower.

PRICES:

One of each of these varieties, 6 Bushes for \$ 5.00

Two of each of these varieties, 12 Bushes for 10.00

Six of each of these varieties, 36 Bushes for 25.00

Twelve of each of these varieties, 72 Bushes for 50.00
